Predictive Analytics

Objective of the Course

R has its own challenges. It is not only important to learn to code in R but to also know the different statistical theories behind the techniques. This course builds a foundation for R by teaching the following:

- The theories and concept behind the technique.
- The way these techniques need to be applied in R.
- Interpreting and drawing conclusions from the outcome.

This course will teach you different statistical theories as well as provide hands on training to carry out different analysis using R.

The programme will focus on practical aspects and include examples which are relevant to the current industrial requirements.

Assignments & Project

1. Assignments will be of the following type:

- MCQ based questionnaire.
- Programming Assignments (Problem statement will be provided.)

2. At the end of the course “Project” will be assigned to the participants which will be based on the Practical Case Studies.

About Gauhati University

Gauhati University was incorporated by an Act of 1947. It started functioning on 26 January, 1948 as an affiliating, teaching and residential university in a few temporary buildings in Guwahati, with K. K. Handique as the first Vice-Chancellor. Phanidhar Dutta, Sailandhar Rajkhowa and Sarat Kumar Dutta were selected as the Registrar, Treasurer and Secretary of University Classes respectively. The emblem of the University, selected from among many submitted, was designed by T. Mukherjee, a textile designer of Ahmedabad. Two Sanskrit words inscribed on it – Vidyaya Sadhayeta (meaning achievement through learning) – indicate the motto of the University.
